## About the Authors

**Lewis Carroll** (1832–1898) was the pseudonym of Charles Lutwidge Dodgson, a Professor of Mathematics at Cambridge University. *Alice's Adventures in Wonderland* and its sequel, *Through the Looking Glass*, are rich repositories of his sparkling gifts for wordplay, logic, and fantasy.

**Raymond Smullyan** (1919–2017), mathematician, logician, magician, creator of extraordinary puzzles, philosopher, pianist, and man of many parts.

**Martin Gardner** (1914–2017) was a renowned author who published over 70 books on subjects from science and math to poetry and religion. He also had a lifelong passion for magic tricks and puzzles. Well known for his mathematical games column in *Scientific American* and his "Trick of the Month" in *Physics Teacher* magazine, Gardner attracted a loyal following with his intelligence, wit, and imagination.
